

# Monocrystalline Solar Module

Series S-100.18-A880

## INTRODUCTION

SOKOYO photovoltaic(PV) modules are assembled by high-performance A-class cells and encapsulated by a durable back sheet, are capable of converting energy from incident lights on the front and diffuse light, as well as reflected and scattered light on rear sides, which make them better reliable, superior low irradiance performance, and excellent energy generation performance.

### High-Quality Guarantee

EL TEST twice 100% for semi-finished and finished products to eliminate defectives.

### Afford Any Bad Weather

Certificated 2400-Pascal wind and snow load.

### Efficiency Under Dim

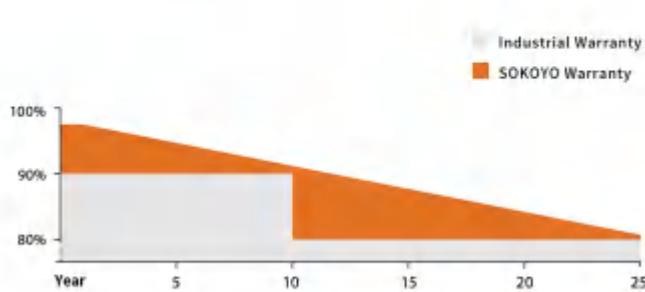

Using advanced glass and textures.  
Superior low irradiance performance.

### Higher Efficiency

High efficiency of conversion by using the new manufacturing technique and A-class cell.
